

THE WALL ART GALLERY Announces Inaugural Opening with HOLOGRAM: THE WHOLE STORY Curated by Rachel Vancelette

NEW YORK, Dec. 5, 2022 /PRNewswire/ -- The Wall Art Gallery presents HOLOGRAM: THE WHOLE STORY curated by Rachel Vancelette, November 29, 2022- February 13, 2023 located at 50 NW 27th Street Miami, FL. The Wall Art Gallery supports international artists and looks to provide a new perspective on the way contemporary art is exhibited, collected, experienced, and engaged.

Holograms replicate the way humans interpret light to perceive the world in three dimensions. The Greek translation 'HOLO' meaning "whole", and 'GRAM' which translates to "story" inspired a curatorial presentation focusing on 'The Whole Story.' The exhibition taps into the current conversations happening in art studios today on progression and contemplation. The exhibition is accompanied by a catalog that investigates experimental avenues, new and old technology and current art practices taking a deeper dive into the lesser-known aspects and forward-thinking processes of artists' studios today. This refreshing holistic approach uses the newly designed exhibition space to present a curated series of contemporary artworks engaging in light, reflections, surfaces, and landscapes for the viewer's contemplation. A thought-provoking combination of art and light transforms the 4000-foot gallery into a unique and engaging sensory and immersive experience.
